Home: No: 269/5 Ethgala, Kochchikade, 11540 Kochchikade (Sri Lanka)

ABOUT ME

I am an undergraduate Software Engineering student with a passion for software development, web technologies, and problem-solving. Through academic and personal projects, I have developed skills in programming, web development, and teamwork. I am seeking an internship opportunity to gain industry experience, enhance my technical knowledge, and contribute to real-world software development projects.

SKILLS

Programming Languages

Java (Programming Language) / JavaScript / SQL / PHP / Python (Programming Language) / Object-Oriented Programming

Web & Frameworks

Spring(Spring Boot, Spring Restful/MVC, Spring Data JPA, Spring Security) / React.js, Node.js, Bootstrap, HTML, CSS

Developer Tools & Methodology

Github / integrated development environment software / Experience in using Postman tools for API testing. / System s Development Life Cycle (SDLC) / Postman / Git

PROJECTS

[01/2026]

NextStep – Centralized University Management Platform

- Developed the frontend of a web-based platform that allows university students to access and search past examination papers efficiently.
- Built responsive and interactive user interfaces using React.js to enhance user experience and accessibility across devices.
- Collaborated with team members to integrate frontend components with backend services and ensure smooth system functionality.
- Participated in project planning, testing, and debugging to improve application performance and usability.

[10/2025]

SpareHubLK – Automotive Parts E-commerce Solution

- Developed and deployed a full-stack e-commerce platform for automotive parts.
- I used PHP and MySQL for product listings, user management and search features.
- Concentrating on creating a user-friendly interface and optimizing database queries for high performance.

Link: <https://github.com/kavishka608/sparehublk.com.git>

[06/2026 – 08/2026]

HirePath AI - AI-Powered Recruitment Platform Full-Stack Developer (Recruiter Module) - 5-Member Team Project

- Built recruiter management subsystem with 9 RESTful APIs using ASP.NET Core 8, C#, and Entity Framework Core with SQL Server
- Implemented Repository Pattern and Service Layer following SOLID principles for clean architecture
- Designed database models for Companies, Departments, Jobs, and JobSkills with proper relationships
- Developed job search with LINQ filtering and real-time dashboard statistics endpoint
- Created DTOs for secure API data transfer and documented all endpoints with Swagger
- Collaborated with 5-member team using Git and Agile methodology

Link: <https://github.com/kavishka608/HirePath>

[08/2026 – Current]

HomeCraft - Home Services Booking Platform Full-Stack Developer - Individual Project

- Built a full-stack platform connecting homeowners with construction professionals using Node.js, Express, and PostgreSQL
- Implemented 20+ RESTful APIs with JWT authentication for user management, projects, bids, reviews, and portfolios
- Designed PostgreSQL database with 7 tables including Users, Professionals, Projects, Bids, and Reviews
- Developed React frontend with responsive UI for seamless booking experience
- Created bidding system, professional search, and rating/review functionality
- Integrated professional portfolio management and availability tracking

CERTIFICATIONS

[University of Moratuwa & DP Education, 12/05/2026]

Python for Beginners Successfully completed the Python Programming for Beginners course offered by the University of Moratuwa and DP Education. Gained fundamental knowledge of Python programming, including variables, data types, control structures, functions, and problem-solving techniques. Developed practical coding skills through hands-on exercises and programming tasks.

Mode of learning: Online

EDUCATION AND TRAINING

BSc (Hons) Software Engineering

NSBM Green University [15/02/2025 – Current]

City: Homagama | Country: Sri Lanka | Website: <https://www.nsbm.ac.lk>

General Certificate of Education Advanced Level – Technology Stream

Jeyaraj Fernando Pulle M.V [2020 – 2022]

City: Negombo | Country: Sri Lanka | Field(s) of study: Technology Stream

- **Engineering Technology (Result: S):** Knowledge of engineering principles, manufacturing processes, materials, and technological applications.
- **Information and Communication Technology (ICT) (Result: C):** Fundamentals of computer systems, networking, databases, and programming concepts.
- **Science for Technology (Result: C):** Understanding of scientific principles related to technology, including physics, chemistry, and practical applications.
